

PERSONAL PROTECTIVE EQUIPMENT

Personal protective equipment (PPE) can reduce the number and severity of work-related injuries and illnesses. Workers protect themselves and family members when using the correct protective equipment needed for the job.

GUIDELINES

PROTECT YOUR HEAD

Protect your head with a hard hat when performing construction work or any job with head injury risks.

PROTECT YOUR VISION

Protect your vision with appropriate safety eyewear (safety glasses, goggles, face-shields) when applying chemicals, welding, working in the shop, working with power or hand tools, working with compressed air, or working in heavy dust conditions.

PROTECT YOUR LUNGS

Protect your lungs with the correct respiratory equipment when working in dusty or moldy conditions, welding, spray painting, or applying chemicals.

PROTECT YOUR FEET

Protect your feet with safety shoes or boots with non-slip soles and heels.

PROTECT YOUR HEARING

Protect your hearing with acoustic earmuffs or plugs when operating noisy equipment.

PROTECT YOUR HANDS

Protect your hands from everyday abuse with gloves matched to the hazard.

PROTECT YOUR SKIN

Protect your skin with chemical resistant garments when using toxic, irritating, or corrosive chemicals. In addition, use sunscreen to protect against the sun's harmful rays.
